Subject

Our File s 582-488D CIP, 527, From GJB
560, 552, 703, 736,
555, 488F CIP, 558,
and 534 Nigeria

In respect of the above cases, I had an overseas call from Dr. Fawcett of Kemp who advised that he wished to be certain on our instructions in respect of these cases. I told him that the forms were being sent out as we had advised by telex.

He mentioned the Assistant Registrar of Patents of Nigeria was going to be in his office this afternoon and for that reason I requested he query the Registrar concerning the three cases which are proposed for amendment so that if his opinion was that amendment would be insufficient to protect the filings, we would possibly want to reregister these cases (736, 703 and 558) and that forms would be sent on.

As things stand, he will telex this afternoon the results of his conference with the Registrar.
